

General informations:

Administrative Information

Operator:

EMPG

Administrative country®ion&county:

- Germany
- NIEDERSACHSEN
- Weser-Ems
- Vechta

Geological Information

Location:

Latitude: 52.757605000000

Longitude: 8.322316000000

Operational Information

Main Category:

Tight Gas Wells

Hydraulic Fracturing Depth:

3951 m

Date of Well Stimulation:

1981

Date of First Well Stimulation:

August 1981

Date of Second Well Stimulation:

November 1982

Environmental information

Total volume of water used for the fracturing:

0 m³
